Higher SDD Worksheet 6 – Exam Style Q

Name

Declare a record structure that will store the following information:

Team name

Total Points

Goals For

Goals Against

Declare an array of records for a league that stores information on 15 teams using the record structure you declared above.

The league requires an algorithm to display the name of the team with the most points.
Write an algorithm to do this.

```
Dim NameOfBestTeam As integer  
Dim NoOfPointsOfBestTeam As integer
```
